DETAILED ACTION

1. Receipt of the Appeal Brief filed January 29, 2004 is acknowledged. The applicant's arguments have been considered by the Examiner and are persuasive. Therefore prosecution is REOPENED for the applicant to consider the following issues.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

the claimed invention is directed to non-statutory subject matter. The applicant fails to provide a practical application of a judicial exception because the claim merely discloses a mathematical algorithm without producing a useful, concrete or tangible result. Thus it is suggested that the applicant provide limitation(s) that shows a tangible result.

Allowable Subject Matter

3. The following is a statement of reasons for the indication of allowable subject matter: Claims 1-3 would be allowable if applicant amends claim 1 to overcome the 35 USC 101 claim rejection cited above by including a limitation in the body of the claim that provides a tangible result.
